Corporate Fellowship Program

Connecting Transitioning Service Members to Exceptional Professional Opportunities
What is the CFP?

The Fellowship Program is a 12-week program, held 3 times a year at various military installations and host cities around the country. Each class hosts 15 – 30 active duty service members (and military spouses in select locations) who gain experience working in the private sector with participating companies and attend weekly educational sessions.

CFP is an approved Skillbridge Program under Dept. of Defense Instruction 1322.29.

Why Create A Corporate Fellowship Program?

The CFP provides transitioning service members with skills needed to succeed in the civilian workforce. Service members participate during their last 6 months of military service.

Host companies help service members bridge the gap between their military service and civilian careers, while also gaining access to a natural recruiting pipeline of military talent.
Easily integrated within the current transition timeline, the 12-week program begins with a week of corporate classroom training, followed by 11 weeks of on-the-job training with a host company (three days per week).

At the end of each week, as a way to kick start the Fellow’s ongoing classroom learning, each CFP hosts a “Fellowship Huddle” with senior-level guest speakers. This allows our fellows to continue making the connection between their military experience and the private sector & to learn from key corporate leaders.
